

Ayush S Kulkarni

BTech CSE (AI/ML Major, Finance Minor) | RV University, Bengaluru | 2nd Year
ayushak12n@gmail.com | +91 866 069 7430 | linkedin.com/in/ayushsk | github.com/snixxfs

SUMMARY

2nd year BTech CSE student at RV University, majoring in AI/ML with a Finance minor. I build AI bots, IoT systems, automation workflows, and web tools — then ship them. Lead E-Cell as President, co-built the GDG RVU website, and organise large-scale campus events. 1,600+ LinkedIn followers. Seeking internships in AI/ML, product, or fintech from Jun/Jul 2025.

EXPERIENCE

President — Entrepreneurship Cell Jun 2024 – Present
E-Cell, RV University

- Lead campus entrepreneurship through founder workshops, mentorship programs, and sponsorship drives for student startups.
- Secured 10+ brand partnerships for Kalpavikas 1.0 — Mercedes-Benz, TVS Motors, Red Bull, Cisco, Nokia, and more — as Sponsorship POC.
- Served as official inter-institutional POC for E-Cell IIT BHU partnership; represented RVU at E-Summit 2026, IIIT Bhubaneswar (Founders Residency + Bidding Wars).
- Co-organized Winter Tech Talk with SOCSE & IUCEE — 6-founder panel event on building startups from zero.

Head — Sponsorships & PR Aug – Dec 2024
Kalpavikas 1.0 | Argonyx '25 Hackathon, RV University

- Managed all PR, media, and cross-college outreach for RVU's flagship annual fest.
- Organized Argonyx '25 — a 24-hour startup simulation hackathon with Rs. 30,000 prize pool — as Head of PR & External Relations.

Campus Ambassador (Internship) 2024
DevTown

- Completed 30+ hours of HTML, CSS, and JavaScript training; connected students with resources as campus representative.

Young Innovators Internship 2024
Scaler School of Technology

- Completed program covering AI for Startups, branding, social media strategy, Discord bot development, and data-driven decision-making.

Technical Team Member Oct 2024 – Oct 2025
Google Developer Group (GDG) On Campus, RV University

- Co-built and launched the official GDG RVU website (gdg-rvu.onrender.com) as part of the technical team.
- Organized Codeverse 2025 LeetCode qualifying rounds; supported hackathons, developer meetups, and community growth.

Board Member Oct 2024 – Oct 2025
RUDRA — RVU Data Analytics Unit

- Co-organized a Toyota-sponsored Ideathon; evaluated 20+ student solutions and mentored analytics teams.

PROJECTS

Smart Trash Collector — IoT Waste Segregation Rover
Arduino, ESP8266, Ultrasonic & Moisture Sensors, 3-DOF Robotic Arm, Li-ion + Solar Power

- Autonomous IoT rover that detects and classifies wet/dry waste using sensors, then auto-sorts into bins via a 3-DOF robotic arm.
- Achieved ~90% segregation accuracy, ~4.5s per sort cycle, and stable WiFi control up to 15m on a hybrid Li-ion and solar power setup.

PharmaGuard — Pharmacogenomic Risk Prediction System
Python, ML — Built at RIFT '26 (PW Pan-India Hackathon, 24hrs)

- Pharmacogenomic risk prediction system that analyses genetic markers to flag adverse drug reactions; built from scratch in 24 hours.

AI Startup Evaluator — Telegram Bot

Python, Telegram Bot API, OpenRouter LLM, Prompt Engineering

- Validates startup ideas with market sizing, risk analysis, and an investor-style verdict; built for E-Cell founders and indie builders.
- Roadmap: auto-generated 5-slide pitch decks and voice input via Whisper API.

AI Tax Assistant — India (New Regime)

Python, Mistral via OpenRouter, Telegram Bot API

- Calculates income tax under India's new regime, answers natural language queries, and recommends savings strategies via Telegram.

BTC Strategy Backtester

Python, Pandas, Matplotlib

- EMA200 + RSI crossover signals on 15-min BTC candles over a 30-day window; clean signal plots with PnL tracking roadmap.

Crypto CRC Webhook Automation

n8n, HMAC-SHA256, ngrok, REST APIs

- Replicated Twitter's CRC webhook challenge in n8n — signs `crc_token` with HMAC-SHA256, returns `response_token`. Fully tested.

GDG RVU Website | gdg-rvu.onrender.com

HTML, CSS, JavaScript

- Co-built and launched the official Google Developer Groups RVU website as Technical Team Member.

Vision Rover — WiFi-Controlled Robot

ESP8266, C++ — KLE Inter-college Hackathon

- WiFi-controlled rover with real-time mobile input built in 24 hours. Placed 3rd.

EVENTS & EXPOSURE

RIFT '26 — Physics Wallah Institute of Innovation

Selected | Pan-India | Feb 2026

Competed in PW's 24-hr open innovation hackathon across 4 cities — 2000+ participants, Rs. 2.5L+ prize pool. Built PharmaGuard.

E-Summit 2026 — IIIT Bhubaneswar

Official POC from RVU | Jan 2026

Represented RVU at E-Summit; attended Startup Expo, founder sessions with Dr. Tanu Jain and Shradha Bora on grit and scaling.

LESGO Entrepreneurs Meetup

Invite-only | Bengaluru

Networked with 10+ founders, agency owners, and VCs. Sessions on product, GTM, and global startup culture.

CEDATE Startup Founders Meet

Invite-only | Bengaluru

Direct conversations with founders, CAs, and AI automation builders on traction, finance, and early-stage strategy.

Smart India Hackathon 2024

National Level | Govt. of India

Built a fisheries catch data digitization platform with analytics dashboard for field workers.

SKILLS

Languages & Web: Python, C++, JavaScript (ES6+), HTML5, CSS3, GSAP, SwiperJS

AI / Automation: OpenRouter, Mistral, Telegram Bot API, Prompt Engineering, n8n, HMAC webhooks

Hardware / IoT: ESP8266, Arduino, Ultrasonic & Moisture Sensors, 3-DOF Robotic Arms, WiFi control

Cloud & Data: AWS, GCP, MySQL, Pandas, Matplotlib, Data Analytics, Backtesting

Tools: Git, Figma, Agile/Scrum, ngrok, REST APIs

Domain: Finance, Stock Markets, Digital Marketing, Entrepreneurship

EDUCATION

BTech in Computer Science — AI/ML Major, Finance Minor

2024 – 2028

RV University, Bengaluru

Electives: Stock Markets (Sem 3) | Digital Marketing (Sem 4) | Active: E-Cell, GDG, RUDRA, Kalpavikas

PU — Computer Science

2022 – 2024

Carmel PU College

CERTIFICATIONS

- **Google Cloud Essentials**
Google

- **Investment Banking Virtual Experience**
J.P. Morgan

- Basement Innovation Program
Red Bull

- Web Development Training (30+ hrs)
DevTown — Campus Ambassador
